SUBJ.: REACH DIRECTIVE AND BARTEC TECHNOR PRODUCTS

BARTEC TECHNOR is constantly striving to fulfill the various EC directives. For the REACH directive we have checked our products and found that all parts are within the requirement of the directive.

We order continuously big quantities of stainless steel which is within the directive, but have been assured by our suppliers that all the supplied stainless steel material is within the requirements of the directive.

BARTEC TECHNOR AS

Yours sincerely,

Egil Tønnesen
QA/HSE/Certification Director
